YOUNG SCIENTIST'S LABORATORY

LEARN SCIENTIFIC PRINCIPLES IN A FUN, RELAXED, STRESS FREE ENVIRONMENT .

{ rising 6th (will be in 7th in Sept)} also rising 7th if space allows

June 15-18

9:00am—11:30 pm

Cost-\$ 150 (supplies included)

THIS CLASS IS FOR THE SERIOUS SCIENCE STUDENT (CLASS LIMIT 10)

ACTIVITIES WILL INCLUDE:

Forensics- In this class we will learn and use the techniques of blood typing, finger printing, fiber analysis combined with logic to solve the crime.

Frog Dissection- If you are really interested in the intricacies of anatomy this is for you. We may also dissect a star fish.

Amazing Chemical Reactions - We will get a serious start on chemistry.

Exploring the Microscopic World - Watch and learn about those amazing living things that live amongst us but are not easily seen.
